Start Time :

End Time :

- *Write a program in C to read n number of values in an array and display the array after skipping two values next to the multiples of 5.*

Name :

Score :

Start Time :

End Time :

- *Write a C program to sort an array and print the count of unique elements in the array.*

Name :

Score :

Start Time :

End Time :

- Write a C program to delete duplicate elements from an array.

Name :

Score :

Start Time :

End Time :

➤ *Write a program to remove all the prime numbers in an array*

Name :

Score :

Start Time :

End Time :

- Write a program in C to find numbers that occur in exact two times in an array.

Name :

Score :

Start Time :

End Time :

- *Write a C program to replace all prime numbers by 0 & even numbers by 1 in an array.*

Name :

Score :

Start Time :

End Time :

- *Write a program in C to get an array from users and remove odd numbers from the array and find the sum of the existing values in the array.*

Name :

Score :

Start Time :

End Time :

- Write a program in C to find the prime numbers in an array and replace it with 0.

Name :

Score :

Start Time :

End Time :

- Write a program in C to skip two elements after the occurrence of a non prime number in an array.

Name :

Score :

Start Time :

End Time :

- *Write a program to replace all odd numbers with '*' in an array & find the sum of even numbers*

Name :

Score :

Start Time :

End Time :

- *Write the code to reverse the array and remove all the multiples of '3' from it*

Name :

Score :

Start Time :

End Time :

➤ *Write a code to replace all the multiples of five by 10*

Name :

Score :

Start Time :

End Time :

- *In an array replace all the multiples of three by '0' and multiples of five by '1'*

Name :

Score :

Start Time :

End Time :

- *Write a program to find the average of all unique array elements*

Name :

Score :

Start Time :

End Time :

- Write a program to find largest number in an unsorted array

Name :

Score :

Start Time :

End Time :

- Write a program to find smallest number in an unsorted array

Name :

Score :

Start Time :

End Time :

- *Write a program to find the average of all unique array elements*

Name :

Score :

Start Time :

End Time :

- Write a C program to delete an element from an array at specified position.

Name :

Score :

Start Time :

End Time :

- Write a program in C to merge two arrays of same size sorted in descending order

Name :

Score :

Start Time :

End Time :

- Write a program to find factorial of largest number in an array

Name :

Score :

Start Time :

End Time :

- Write a program to delete unique elements in an array

Name :

Score :

Start Time :

End Time :

- Write a program in C to read n number of values in an array and display the array after deleting two values next to an odd number.

Name :

Score :

Start Time :

End Time :

- Write a program in C to count even numbers and count prime numbers

Name :

Score :

Start Time :

End Time :

➤ Write a program in C to delete multiples of 5

Name :

Score :

Start Time :

End Time :

- Write a program in C to find the sum, sum is greater than 100 delete odd, sum is less than 100 delete even numbers

Name :

Score :

Start Time :

End Time :

- Write a program to delete lowest element in an array

Name :

Score :

Start Time :

End Time :

- Write a program to put even and odd elements of an array in two separate arrays.

Name :

Score :

Start Time :

End Time :

- Write a program in C to insert New value in the array

Name :

Score :

Start Time :

End Time :

- Write a program in C to print all unique elements in an array

Name :

Score :

Start Time :

End Time :

➤ Write a program to delete repeating element

Name :

Score :

Start Time :

End Time :

- Write a program to get an array from users, remove even numbers from the array and find the average of the existing values in the array.

Name :

Score :

Start Time :

End Time :

- Write a program to find the average of all the prime numbers in an array

Name :

Score :

Start Time :

End Time :

- Write a program to reverse an array and print the count of odd numbers in the array.

Name :

Score :

Start Time :

End Time :

- Sort the array and replace elements in an even position with '0'.

Name :

Score :

Start Time :

End Time :

- Write a program to find the frequencies of array elements

Name :

Start Time :

End Time :

- Write a program in C to insert a element in a specified position.

Name :

Start Time :

End Time :

- Write a program in C to Reverse the array and delete even numbers in the array

Name :

Start Time :

End Time :

- Write a program in C to read n number of values in an array and display the array after deleting two values next to an odd number.

Name :

Start Time :

End Time :

- *Write a C program to find the largest element of an array without sorting*

Name :

Start Time :

End Time :

- Write a program in C to count prime numbers

Name :

Start Time :

End Time :

- Write a program in C to delete unique numbers in the array

Name :

Start Time :

End Time :

- Write a program in C to find the sum, sum is greater than 100 delete even, sum is less than 100 delete odd numbers

Name :

Start Time :

End Time :

- Write a program in C to read n number of values in an array and display it in reverse order

Name :

Start Time :

End Time :

- Write a program in C to find smallest element in the array without sorting

Name :

Start Time :

End Time :

- Write a program to count the total number of unique elements in an array

Name :

Start Time :

End Time :

- Write a program to print all repeating elements in an array.

Name :

Start Time :

End Time :

- Write a program to print all prime numbers in an array

Name :

Start Time :

End Time :

- Write a program to find the majority element in the array (The majority element is the element that appears more than $\lfloor n / 2 \rfloor$ times).

Name :

Start Time :

End Time :

- Write a program to count the frequency of each element of an array.

Name :

Start Time :

End Time :

- *Write a C program to sort an array and print the count of prime numbers in the array.*
